Lenoir, North Carolina

COUNTY SEAT OF CALDWELL COUNTY

PREFACE

The City of Lenoir is situated in the western Piedmont section of North Carolina in the foothills of the Blue Ridge Mountains and is the southern gateway to the Blue Ridge Parkway, Blowing Rock-Grandfather Mountain area. It is principally an industrial city with the manufacture of furniture its leading industry, being the largest in the entire United States.

Between 1857 and 1900, however, Lenoir was known as a summer resort and had many summer visitors, while all of those who went to Blowing Rock left the train at Lenoir and drove 23 miles by road up the mountain in horse drawn hacks. The distance is now only 19 miles.

INDUSTRY

It was during this period, however, that the manufacture of furniture first started in Lenoir, since there were many skilled cabinet makers in this area, the descendants of skilled artisans who had been brought over from England by the wealthy plantation owners in Happy Valley and the Yadkin Valley to build the furniture for the homes built in this valley shortly after the Revolution. Several of these beautiful old homes, containing the hand-made furniture, are still standing and in use by the descendants of the families who built them.

By 1900 Lenoir was already well-known as a furniture manufacturing center. This industry has increased steadily until at the present time there are eighteen large furniture manufacturing plants. In all, there are some 51 different industries operated in Lenoir employing more than 10,000 persons. Of these the furniture industry alone employs more than 6,000 persons, a majority of these being men. The payroll for the furniture industry amounts to approximately $300,000 a week and the total industrial payroll is approximately $600,000 a week. There are also eight cotton spinning mills in Lenoir and the Lenoir area which employs some 3,000 persons, mostly women, also a large plant making work clothing. There are also hosiery mills, machine shops, flour mills, sawmills, millwork plants and other miscellaneous industries.

POPULATION

The population of Lenoir was 7,900 within the city limits according to the 1950 census, while the population of Caldwell County in 1950 was 43,329. The population of the two townships in which Lenoir is located was 26,090 in 1950. Accordingly, the population of Lenoir and the areas

immediately surrounding it is conservatively estimated at approximately 20,106 persons now, while the trading area is approximately between 60,000 and 65,000. A recent annexation has increased the population within the city limits to approximately 12,500.

The difference between the census population and the population living in and adjacent to Lenoir is due to the fact that many of those employed in the industrial plants live outside the city limits or on small farms out in the country.

TRANSPORTATION

Lenoir is served by the Carolina and Northwestern Railway, a subsidiary of the Southern Railway System, extending from Lenoir to Chester, S. C., where it connects with the Seaboard Airline Railway. The C & N W also intersects the main East-West line of the Southern Railway in Hickory, 19 miles south, and the main Washington-Atlanta line of the Southern in Gastonia, some 50 miles south of Lenoir. In addition, Lenoir is served by three state and federal highways which afford frequent bus and freight transportation. Ten large trucking concerns operate out of Lenoir either as common carriers or contract haulers. Regular bus service to all points in the United States is provided by the Atlantic Greyhound lines and the Queen City Coach Company. Through rail passenger service to New York, Chicago and all points is available from Hickory over the Southern Railway System. Piedmont Airlines provides air travel from the Hickory Airport.

TAXES

No state property tax levied in North Carolina.

FIRE PROTECTION

mately $40,000,000.00 based on an assessment of 75% of property value.

Lenoir has a new modern water plant located on the Catawba River. The daily capacity is 4,500,000 gallons. The present consumption is 1,500,000 gallons giving a 3,000,000 gallon surplus. The Catawba River is practically an unlimited source. It is supplied by numerous mountain streams making it unusually soft and pure.

The Rhodhiss Dam is approximately 5 miles below the filtration plant giving a constant non-varying water level. Clear storage capacity is 4,000,000 gallons.

UTILITIES

The electric power supplied to Lenoir and Caldwell County by the Duke Power Company which with its network of hydro-electric and steam power plants is equipped to deliver an almost unlimited amount of electricity for either domestic or commercial use. These people are intelligent, hard working and are not inclined to float from one section to another. Most of them own their homes or farms. Their forefathers have lived in this mountain area for more than a century. This supply of native born white-labor with intelligence and ability is the outstanding asset of Lenoir and this entire region.

This Publication is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and directory of buyer and seller.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publications.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.
